

Internet Clicker - One Sheet

For best results, please use a handheld mobile device with any auto-sleep functionality disabled.

Step 1: Find the Internet Clicker section on the PRG provided Show Links sheet. Open the link by clicking or copying and pasting into a web browser. The link is personalized for you so please do not share the link with other presenters.

Clicking Disabled Notificaton

Shows when you are logged into the system but are locked out of control, typically because it is not your turn to present.

Optional Timer

Controlled from vMix Suite

Advance

Click anywhere in green to advance one slide

Back

Click anywhere in red to go back one slide

Message Window

Messages sent from vMix Suite. Click small X to close. Will also update if new message is sent.

Clicking Enabled Notificaiton

Briefly displays when you have been given control and then auto-hides.
